

Come and join us at the Snowdrops Parent and Child Group!

**Morning sessions are available
at the Cambridge Steiner School in Fulbourn.**

Our small and welcoming groups are an excellent way to meet new friends and be inspired by the insights of Steiner Waldorf education.

We focus on creating a nurturing and peaceful environment to help support parents with children from eighteen months to three years.

Each session has its own rhythmic and seasonal quality, which helps foster a reassuring sense of continuity, creates a connection with the natural world and develops wonder in the eyes of the child.

We spend time outdoors in our lovely gardens, sing nursery rhymes and seasonal songs, and share freshly-baked bread.

While the parents work quietly on a seasonal craft activity, we observe the children in their free-play with simple toys made of natural materials. The children also enjoy playing in the cosy home corner and creating their own play scenes.

Why not come along for a free taster session? For further information, including session times, please contact Emma Marshall, Parent and Child Group Leader (contact details below).

We look forward to welcoming you soon!
